

Self-Propelled
TURBOMIX

20-30 m³

RMH mixers are designed for maximum efficiency and reliability. With advanced features and a focus on seamless operation, they provide exceptional service and performance to maximize uptime.

Eco

ECO mode with smart engine adaptation, optimizing power and fuel consumption. Advanced hydraulic system for precise control*

TMR

Maximal preservation of nutritional value, optimal fiber length & even distribution for livestock health and yield.

Milk Booster

Boost milk production by 3-5% with homogeneous, fluffy, mixing of unique overlapping augers.*

DuraCore Construction

Optional stainless steel auger, drum, conveyor, and counter-knives for extended wear resistance in all components

Operator Environment

Height-adjustable cabin for unmatched visibility & all day comfort with an ergonomic design.

Worldwide Service

Ensure maximum uptime with global spare parts availability and professional local technical support. Plus, quick-access for easy maintenance.

*Based on comparative studies with leading competitor models. Results may vary based on operational conditions.

Smart Service Access

- Quick-access engine area.
- Comprehensive worldwide parts availability.
- Local expert technical support.
- Low maintenance design for maximum uptime and easy maintenance.
- Time Saver

Operator Environment

- 360° visibility with height-adjustable cabin.
- Ergonomic work area.
- Multi-camera system (rear, mixing chamber, optional sides).
- Advanced suspension for all-day comfort.

Advanced Drive System

4x4 drive & 4-wheel steering for manoeuvrability.

Crab mode for narrow spaces.

Superior ground clearance and traction for challenging terrains.

Enhanced stability in all conditions.

On road capabilities. On road capabilities.

Perfect Mix

Overlapping vertical augers

Integrated contra-knife for quicker mixing.

Ensures homogeneous mix.

Mixing bin top options (cover/fiber).

3CR12 stainless steel option.

SafeFeed

Customized discharge system.

Powerful magnets protecting cattle from metallic particles.

Features up to four doors and foldable side-shift conveyor for precise feed distribution.

Vitamins Compartment

Easy to add supplements.

Enrich cattle yield and save time.

CutControl

Advanced feed harvesting

Automatic precise loading option.

Cut off pressure.

Multiple loading speed options.

3CR12 stainless steel option.

TURBOMIX Technical selfs data

Specifications	Turbomix 20	Turbomix 22	Turbomix 24	Turbomix 26	Turbomix 28	Turbomix 30
1 Volume [cu. mt.]	20	22	24	26	28	30
2 Max Load [kg]	8000	8800	9600	10400	11200	12000

11 Loading Elevator Belt [mm]	650					
12 Discharge Height [mm]	810					
13 Wheel Dia. [mm]	1150					
14 Wheel Base [mm]	5840					
15 Steering Radius [mm]	7250					
16 Ground Clearance [mm]	275					
17 Front Steering	Yes					
18 4 Wheel Steering	Yes					
19 Driving Speed [KPH]	40					
20 No. of STD Choper Knives	66					
21 No. of STD Mixer Knives	14				15	
22 Bin Wall Thickness [mm]	6					
23 Mixer Segment Thickness [mm]	16/14					
24 Mixer Speed [rpm]	up to 44					
25 Elevated Cab.	Optional (GOLD)					
26 3CR12 Option	Bin, Augers, Chopper, Loading Elevator					

About Us

Founded in 1956, RMH has built a strong legacy of over 60 years in manufacturing high-quality feed mixers for dairy farms worldwide. Committed to excellence, outstanding service, and maximum performance, RMH continues to set industry standards.

With two state-of-the-art production sites in Israel (Sderot) and Poland (AndoTech), along with a European subsidiary (RMH France) serving as a key marketing and operational hub, RMH ensures seamless global reach and support.

In 2023, RMH was recognized for its remarkable achievement of increasing share yield by more than 100% on the Tel Aviv Stock Exchange. As a pioneer in its field, RMH is dedicated to continuous innovation, developing advanced models that drive its sustained success.

The company invests heavily in cutting-edge technologies such as Galileo, DairyCS, and AgTech, reinforcing its leadership in the evolving agricultural landscape.
